Add a branch

To add staff or move someone to another branch, use **Team**. Staff at a branch only see that branch's orders.

Team

Add staff, change roles and branches, or send a login link on the vendor's behalf. Their main manager can do the same at Vendor → Team.

Add a staff member

Adding on the vendor's behalf. They get an email from laundriroom to set their password.

Full name

Email — name@example.com

Phone (optional)

Role — Attendant — orders, tags, check-in

Works at — Lekki Phase 1 only

Send invite

Team (2)

Managers see everything, including money. Attendants see orders, tags, item requests and reviews.

Name	Role	Works at	Status	
Chidi Nwosu chidi@foldandpress.ng · +234 805 222 0003	Manager	All branches	Active	Send login link · Remove
Halima Bello halima@foldandpress.ng · +234 805 222 0004	Attendant	Yaba	Active	Send login link · Remove

How staff sign in

1. You (or the vendor's manager) add them here with their email.
2. laundriroom emails them a link to set their own password — nobody else ever sees it.
3. They sign in at the laundriroom login page with that email and password, on the shop's tablet or their phone, and land on the vendor dashboard.

Everyone gets their own login, so the app records who checked in, processed and handed over each order. Lost the email? Use **Send login link**.

Vendor quality

1 flagged 2 watching

Vendors with 1–2★ reviews. Each bad review already emails the vendor asking them to contact the customer and put it right. **Flagged** means bad reviews are repeating or rising (3+ in 30 days, more than the 30 days before, or 30%+ of recent reviews). Take the steps in order: **inquiry** to understand why, a **warning** if it continues, then **suspension**.

Generate tags

Each tag gets a QR code and a short code staff can type in: your prefix and a number, like `FPL-0042`. The prefix `FPL` is set from the business name and belongs to Fold & Press, Lekki alone, and numbers never repeat, so no two tags are ever the same.

Partner Agreement

0 of 4 vendors on the current version

The terms every partner accepts when they apply (/apply) and again in their dashboard (Vendor → Verification). Add, edit, reorder or switch off clauses. Separate paragraphs with a blank line. Any change counts as a new version: vendors who accepted an older one are asked to accept again. Last changed 23 Oct, 01:49.

Clause 1

Non-circumvention

↑ ↓ Edit

Customers introduced to you through laundriroom are platform customers. For twelve (12) months from a customer's first order placed with you via laundriroom, you agree to transact all laundry services for that customer through the laundriroom platform.

You will not solicit, divert, or accept such customers' orders, payments, or contact outside the platform — directly or indirectly, and whether in cash or otherwise — during that period.

Breach may result in withheld or reversed payouts, commission adjustments to recover lost platform fees, suspension, de-listing, and recovery of damages.

Hide from the agreement Delete

Clause 2

Service standards

↑ ↓ Edit

Check in every item with a tag and condition notes, and hand orders back within the turnaround the customer chose.

Keep your prices, opening hours and branch details up to date on laundriroom.

Hide from the agreement Delete

Clause 3

Old draft clause

Hidden ↑ ↓ Edit

This clause is hidden from vendors.

Fees & charges

One set of rates applies to every vendor. The commission is added on top of each vendor's item prices, so the customer pays the vendor's price plus commission and the vendor is paid their own price in full. On an express order the express charge replaces the commission. Premium is added on top either way. Premium extras are set under **Services & extras**.

Platform rates

Applies to all vendors.

Commission
15 %
Added on top of the vendor's item prices on normal-turnaround orders. The vendor is paid their own price in full. Not added to delivery or extras.

Express markup
20 %
% of the vendor's price (items + extras). Replaces the commission on express orders. Kept by the platform.

Premium markup
15 %
% of the vendor's price (items + extras), added to premium orders. Kept by the platform.

Example — a ₦200 item. Normal: **₦230** standard · **₦260** premium. Express: **₦240** standard · **₦270** premium. The vendor receives ₦200 every time.

Save platform rates

Delivery pricing

How the delivery fee is worked out when a customer chooses delivery.

- **Flat fee** — Every delivery costs ₦1,500.
- **By distance (Google Maps)** — Like a ride-hailing fare: base + amount per km of driving distance.

Per kilometre
₦ 250
Charged for each km of driving distance from the branch to the customer.

Base fare
₦ 500
Added to every delivery (0 for none).

Minimum fee
₦ 1000
A delivery never costs less than this (0 for none).

Examples: 2 km → ₦1,000 · 5 km → ₦1,750 · 10 km → ₦3,000 (rounded up to the nearest ₦50).

Save delivery pricing

Delivery & other charges

Delivery fee
₦ 1500 Save
Flat fee for delivery orders, and the fallback when distance pricing can't find a distance. Paid to the vendor.

Non-collection penalty
50 %
Of the delivery fee, charged each time a delivery is rescheduled because the customer wasn't available.

Referral reward
₦ 1000
Credit issued to a customer when someone they referred completes a first order (0 = off).

Save charges

Vendor payouts

When vendors receive their share through Paystack.

Hold payouts for
0 hours Save
0 = vendors are paid through Paystack immediately once an order is completed and paid (recommended). Add hours only if you want a window to catch disputes first.

Payouts

₦7,500 due across 1 Statement PDF Payouts PDF

Vendors are paid automatically through Paystack as soon as an order is completed and paid — their own prices and delivery in full (commission is added to the customer's price). Anything that can't be sent is retried every hour. **Hold** a disputed payout; **Release** sends a due or held payout immediately.

Vendor	Due	Gross	Fee	Net	Status	Action
Spotless Ikeja	22 Oct, 01:49	₦4,650	—	₦4,650	sent	Sent

Ada Obi · 03 Nov, 20:49

Hi, I dropped off 6 items yesterday including an agbada for an event on Saturday. Will it be ready by Friday evening?

Support · 03 Nov, 23:49

Hi Ada, thanks for reaching out. I've checked with Fold & Press — your order is in washing now and is on track for Thursday. I'll update you if anything changes.

Leakage analytics

Signals that customers found through laundriroom may be transacting with a vendor off-platform. A high **one-and-done** rate (ordered once, never again) or many **lapsed repeat** customers (engaged, then went quiet for over 45 days) are the clearest tells. Treat these as leads to investigate, not proof.

Spotless Ikeja	12	19	6	6 (50%)	1	Watch
Bubble Wash Yaba	10	12	4	6 (60%)	3	High

Sorted by highest one-and-done rate first. Low order counts are noisy — weight vendors with enough history.

A customer wasn't happy

Hi Chidi, **Barry** rated order **ORD-261101-0042** 2 out of 5.

“My white shirt came back with a stain and two buttons missing.”

Please look into what happened, reach out to the customer to talk it through, and resolve it promptly. Quick, caring follow-up usually turns an unhappy customer around — and repeated low ratings are reviewed by laundriroom.
